

**DreamBook**  
**Universes**

Portobello

A preview. Signs of what is to come. The first manifestation of a new collection that was dreamed and fulfilled. The restart that energizes us for a new journey. Where to start?

We ask and we already know the answer. We start here, with what is beside us. For our space. If we do it this way, if everyone does it this way, we will transform the world. What a dream! New prime materials for new projects, our proposition for this fresh start. A new year. The beginning of a story.

Taken back. Hope that transforms into reality. Let's go all out in 2022. Cause positive impacts, surprise looks and live closer to nature. Closer to our nature, with authenticity. In nature, with conscience and responsibility. For all this to work, we must get to work. We present our new prime materials.

# Infinite Universes

01

Dreams lead to the creation of new universes.  
Human ability to transform reality and imagination together.

They suggest engaging atmospheres, enhancing the feeling of well-being for a place with meaning. They invite you to access what is immaterial, explorer intuition.

To bring out the senses,  
In the same environments, discover new paths.

# Unique Universe

Tea Universe

02

Universes as infinite as they are unique.

Sensory experiences lead  
the mind to new realities

Simplify routine, pause time  
and balance. A little bit of air,  
sun on your skin, a cup of tea.

Small universes that open up.

The universe in a cup of tea.

# Cidreira

# Rehearsals

The environment of your dreams

05

# Charleston

Art Deco years inspired all of the art.  
A transgressor mood created a new  
aesthetic.

In dance, Charleston, with all of its  
irreverence, marked the birth of jazz,  
in New Orleans.

Inspired by this new way of seeing the  
classics, totally transformed by the euphoria  
of the crazy ones in the 20s, we present  
the eternal white Italian marble, in its  
contemporary rhythmic version – more  
dynamic, versatile and ready to express  
all its authenticity in the most distinct  
projects. It's Jazz in interior design.

# Botanique

The search for comfort, balance and well-being made our home become our temple. To connect the spaces with our essence is a constant search, and to bring nature closer is increasingly a need of the soul.

To interpret nature, through the sensorial texture of the mosaic and the soft and calm tones of herbs and plants that serve as ingredients for the most elaborate teas, enabled the creation of the “Botanique” line.

A proposal of balance between matter and the spirit of well-being, to assemble the walls of the most diverse environments. “Botanique” is an invitation to taste good moments.

Available in 29x30 format, the colors Lavande, Anis, Melisse, Sauge, Rose and Camellia are the ideal options for a cozy atmosphere. The “Botanique” collection invites you for a cup of tea in the best environments.

# Gaia

Mother Earth reminds us of the importance of our connection with nature. Gaia is a tile interpretation that proposes to bring this concept inside the house.

An artistic look permeates the mix between leaves and flowers inspired by the Atlantic Forest and Amazon biome. The brush glides over the surface, and more layers are built on such rich and complex art. With well-marked delineated drawings, Gaia has the counterpoint of the softness of the brushstrokes with the perfect harmony of the maxi outlines.

It has shades of white, green and touches of earthy tones and other colors, and enchantment and surprise before your eyes. The abstraction of elements from the Brazilian biome, such as the orchid and the bromeliad, constitute the three jewels of the decorated.

Available in three colors, in 20x20 bold format, the precious Opaline, Jade and Tourmaline make for a cozy and contemporary environment.

# Beats

Beats is a new beat! The translation of how life can be lighter and more creative. The classic, with a relaxed aura: Versatility and personality.

The traditional Venetian terrazzo, revisited, and with an updated aesthetic. A surface with larger fragments and neutral colors with a warm background. Beats features multiple application possibilities.

Available in 90x90 format. It has variations in light, medium, and dark tones, Beats has a neutral background and particles with a touch of colors. Indicated for projects with originality and identity. The EXT version extends the use of this material beyond indoor environment.

# Verano

The most awaited season of the year: Verano!  
The season where the days are longer, and the nights are shorter. The season to intensely live and enjoy outdoors. Verano provides an atmosphere that vibrates freshness and a relaxed soul.

A stone with a variation of designs and fresh nuances. It can always be summer! With Verano we translate the climate and light of this season for every single day.

Indicated for outdoors – for swimming pools – the surface has its shades accentuated with the effect of water and sunlight. In 15x15 format, it also suits indoors areas for more relaxed projects, beyond imagination.

# Malibu Lake

The intense blue nuances present in the multicolored rocks gave rise to Malibu Lake. Cobalt blue, a lively and sophisticated color, enhances the texture of the stone's natural veins. Mixed tones generate a profusion of colors for unique environments.
