AUTHENTIC

A look that crosses through matter and makes individuality emerge. The original ingredient for being yourself.

To rediscover yourself is also to find expressions that represent you. A unique environment brings elements of identity that build a story. The story of each one, two, of the house, of the city. Individuality and community converse and define the particular and the common. Dreamed up, shared, lived spaces. Spaces with biography. Unique spaces.

Una mirada que atraviesa la materia y hace surgir la individualidad. El ingrediente original para ser usted mismo.

Redescubrirse es también encontrar expresiones que te representan. Un ambiente único trae elementos de identidad que construyen una historia. La historia de cada uno, de cada dos, de la casa, de la ciudad. Individualidad y comunidad dialogan y definen lo especial y lo común. Espacios soñados, compartidos, vividos. Espacios con biografía. Espacios únicos.

MOONLIGHT

OFF WHITE

SAND

Crystalline veins take center stage and delicately fill the entire surface, forming layers that intersect in tone over tone.

Versatile and with a minimalist and elegant atmosphere, the two tones are clear and reproduce at times the silver light of the moon, and at other times the golden light. Perfect to shine alone or in compositions with other materials.

Vetas cristalinas asumen protagonismo y llenan delicadamente toda la superficie, formando capas que se cruzan en tono sobre tono.

Versátil y con una atmósfera minimalista y elegante, los dos tonos son claros y reproducen ora la luz plateada de la luna, ora la luz dorada. Perfectos para brillar solitos o en composiciones con otros materiales.

STORM

GRAY

Of intense and spectacular beauty. The strong storms lend all the impetuosity of their electrical discharges to compose Storm's identity. The unexpected flashes of lightning are represented in fluid, expressive veins and in grayish tones. The pitch of the skies translates smoothly and elegantly into the solid surfaces.

De belleza intensa y deslumbrante. Las fuertes tormentas prestan toda la impetuosidad de sus descargas eléctricas para componer la identidad de Storm. Los inesperados destellos de los rayos se representan con vetas fluidas, expresivas y en tonos grisáceos. La oscuridad del cielo surge de forma suave y elegante en las superficies sólidas.

APUANO ORO

The mountainous profiles of the marble basins, in the distance, fancifully reproduce the form of snowy peaks. It is the Apuan Alps that, with their stunning immensity of quarries that look towards the sky, inspire the composition of Apuano Oro.

Los perfiles montañosos de los cuencos de mármol, a lo lejos, reproducen fantásticamente la figura de picos nevados. Son los Alpes Apuanos que, con su inmensidad de canteras deslumbrantes que miran al cielo, inspiran la composición de Apuano Oro.

BORGHINI VIOLA

The most noble and traditional white marbles have in common their origin, the region of Carrara in Italy, which stretches from the Alps to the sea. The Borghini, which has organic veins that tend towards a circle, was named for its formal resemblance to the urban centers developed from a center of commerce in the Middle Ages, the burgos.

When nature and beauty surprise in perfect proportions. The tones, veins, depth and transparency, precisely distributed over the white cradle of this greek marble. CHARLESTON

Art Deco years inspired all of the art.

A transgressor mood created a new aesthetic. In dance, Charleston, with all of its irreverence, marked the birth of jazz, in New Orleans.

Inspired by this new way of seeing the classics, totally transformed by the euphoria of the crazy ones in the 20s, we present the eternal white Italian marble, in its contemporary rhythmic version – more dynamic, versatile and ready to express all its authenticity in the most distinct projects. It's Jazz in interior design.

Años del estilo Art Déco inspiraron todas las artes.

Un ambiente transgresor creó una nueva estética. En la danza, el Charleston, con toda su irreverencia, marcó el nacimiento del jazz, en New Orleans.

Inspirado en esta nueva mirada para los clásicos, totalmente transformados por la euforia de los locos años 20, presentamos el eterno mármol blanco italiano, en la versión con ritmo contemporáneo - más dinámico, versátil y listo para expresar toda su autenticidad en los más diferentes proyectos. OR DE CACAU

Pure gold over intense cocoa. There is no better way to define Or de Cacau, a coating which golden veins cross and illuminate the entire surface in chocolate tones. The intensity of the tones, a striking feature of the Spanish marbles, reaffirms its origin and leads us to prominent spaces. Or de Cacau is the jewel of the Portobello portfolio, for sophisticated and welcoming compositions.

Oro puro sobre cacao intenso. Esta es la mejor manera de definir Or de Cacau, un revestimiento cuyas vetas doradas se cruzan e iluminan toda la superficie de tonos achocolatados. La intensidad de los tonos, una característica sobresaliente de los mármoles españoles, reafirma su origen y nos transporta a ambientes destacados. Or de Cacau es la joya del catálogo de Portobello, para combinaciones sofisticadas y acogedoras.

The classic travertine, an Italian material present in great works of architecture, is reinterpreted in a new surface. A set of threads, which meet and move apart, form a non-obvious linear geometry and update what nature has presented us with for thousands of years. The material is enhanced in slender shapes and is presented in two formats: in the 90x180 slab, with a super touch natural finish - an option that intensifies the details through a targeted texture - and 60x120, in a natural finish.

El clásico travertino, material italiano presente en grandes obras de la arquitectura, es reinterpretado en una nueva superficie. Un conjunto de hilos, que se encuentran y se alejan formando una geometría lineal poco predecible, que renueva lo que la naturaleza nos presenta hace miles de años. El material se realza en formas longilíneas y se presenta en dos formatos: slabs 90x180 con acabado natural super touch - opción que intensifica los detalles mediante una textura direccionalizada - y 60x120 con acabado natural.

The Mediterranean landscape of the island of Crete defined the natural tones that sometimes turn gray, sometimes gain reflections from the sea and mountains. The charm of the chromatic hues is the almost watercolor variation of the pigmented handmade cement technique.

El paisaje mediterráneo de la isla de Creta definió los tonos naturales que unas veces se vuelven grises, y otras veces adquieren reflejos del mar y las montañas. El encanto de las tonalidades cromáticas es la variación casi acuarela de la técnica del cemento artesanal pigmentado.

Master of Brazilian architecture Ruy Ohtake always takes us to experiences that surprise us. Going beyond limits a constant in his creative process, Ruy challenges the possibilities of material and brings out what is unusual. The concrete and the color. Boldness and genius. When all is said and done, the simplicity and elegance of the work envelops and enchants us. Sometimes flat, almost obvious if it weren't for the subtleties of color and mix of the small aggregates.

Maestro de la arquitectura brasileña Ruy Ohtake siempre nos lleva a experiencias que sorprenden. Extrapolar los límites una constante en su proceso creativo desafía las posibilidades del material y hace emerger lo inusitado. El concreto y el color. La osadía y la genialidad. Al final, la simplicidad y elegancia de la obra nos envuelve y encanta. A veces plana, casi obvia si no fueran las sutilezas del color y de la miscelánea de los pequeños agregados.

Being on the cutting edge of innovation, transcending standards and going beyond the already established, express the avant-garde movement in arts and culture in early 20th century in France. The power of disruptive ideas to transform something consolidated inspired the recreation of the classic oak, the hardwood of European and American forests. To recreate oak in porcelain tiles is to overcome design and technology challenges, it is to bring nature to still unexplored levels, it is to combine creative sensitivity with emerging innovation.

Estar en la frontera de la innovación, trascender los estándares e ir más allá de lo establecido expresa el movimiento de vanguardia en las artes y la cultura a principios del siglo XX en Francia. La fuerza de las ideas disruptivas para transformar algo consolidado inspiró la recreación del clásico roble, la madera típica de los bosques europeos y americanos. Recrear el roble en porcelanato es superar los retos de diseño y tecnología, es llevar lo natural a niveles aún inexploradas, es conjugar la sensibilidad creativa con la innovación emergente.

TRAMONTANA

Inspiration in nature with contemporary aesthetics.

A wood in which veins are inspired by winds from around the world. Continuous and fluid, natural tones reveal a light and cozy surface in an urban language. Scirocco, the wind that takes sand from Sahara to Rome, expresses the most intense tone. Tramontana brings the winds from northern mountains to a nuance of sunset. Zefiro is the light breeze from the range of colors by Winds. A minimal surface, ideal for indoor and outdoor spaces.

La inspiración en la naturaleza con la estética contemporánea.

Una madera donde las vetas son inspiradas en los vientos del mundo. Continuos y fluidos, los tonos naturales revelan una superficie liviana y acogedora en un lenguaje urbano. Scirocco, el viento que lleva la arena del Sahara hasta Roma, expresa el tono más intenso. Tramontana trae el viento de las montañas del norte para un matiz de la puesta del sol. Zefiro es la suave brisa de la cartilla Winds. Superficie mínima, ideal para ambientes internos y externos.

Its soft and velvety touch, its minimalist esthetic and its fragmented surface - sometimes lighter, sometimes darker - legitimately recall the natural rusticity of Limestone in the most distinct formats. In its entirety, the highlight is Tact's inventive and revolutionary technology which, despite its smooth finish, is free to use in and out. Free.dom is like this: freedom of possibilities, freedom of choices. It is an incentive to allow yourself and to go as far as your imagination can take you.

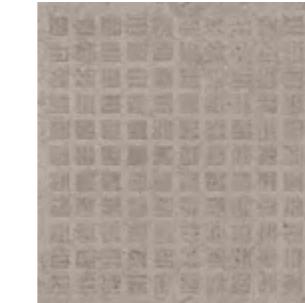

Su toque suave y aterciopelado, su estética minimalista y su superficie fragmentada - a veces más clara, a veces más oscura - evoca con legitimidad a la rusticidad natural del Limestone en sus más variados formatos. Destaca por completo la tecnología inventiva y revolucionaria de Tact que, a pesar de su acabado suave, da la libertad para uso en ambientes internos y externos. Free.dom es así: libertad en las posibilidades, libertad en las elecciones. Es un incentivo para permitirse ir hasta donde la imaginación quiera.

When producing Pietra Lombarda, nature arranged big pebbles in a tone-on-tone composition. Design recomposed the tones and re-edited Pietra Lombarda. Lombarda Viva updates the chromatic color chart of Lombard architecture that marks the landscape of Milan. More expressive and with vivacity as a mood, the new proposal brings in and out solutions for all projects.

La naturaleza compuso grandes guijarros en tono sobre tono al crear la Pietra Lombarda. El diseño recompuso los tonos y reedita la Pietra Lombarda. Lombarda Viva actualiza la cartilla cromática de la roca de la arquitectura lombarda que marca el paisaje de Milano. Más expresiva y con la vivacidad como mood, la nueva propuesta trae soluciones in and out para todos los proyectos.

MS. BARCELONA

CRISTAL

ANTRACITA

Mies Van der Rohe, in addition to being one of the main names of architecture in the 20th century, if translating his minimalist austerity in a bold, sophisticated and very innovative way, also left some maxims like "Less is More". It may seem simplistic, but it is actually much sophisticated and elaborated. It is the synthesis of simplicity from very complex compositions.

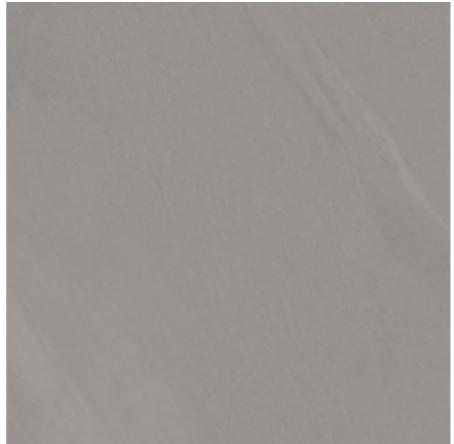

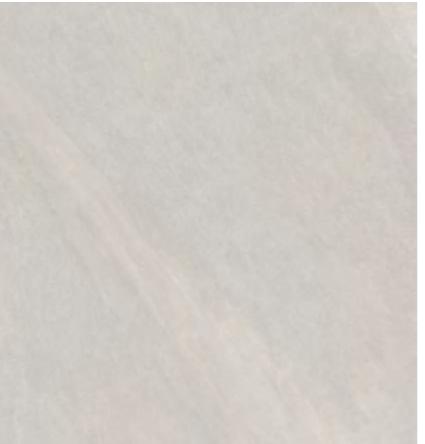

Ms. Barcelona was conceived with the ambition of construing the same thought in a proposal of design that, from a fusion of materials like limestones, cements, and basalts, creates a striking finish, yet maintains its minimalism. A contemporary vision of the layers of time: The stone, the concrete, the architecture, the history, the technology, and the design - Ms. Barcelona.

Mies van der Rohe, además de ser uno de los principales nombres de la arquitectura del siglo XX al traducir de forma osada, sofisticada y muy innovadora su austereidad minimalista, también dejó algunas máximas como el "Less is More". Lo "menos es más" puede parecer simplista, pero es en verdad bastante sofisticado y elaborado, es la síntesis de la simplicidad a partir de composiciones bastante complejas.

Ms Barcelona fue idealizada con la ambición de traducir el mismo pensamiento en una propuesta de diseño que, a partir de una fusión de materiales como limestones, calizas, cementos y basaltinas, crea una superficie impactante, sin embargo, minimalista.

Una visión contemporánea de las camadas del tiempo: la piedra, el concreto, la arquitectura, la historia, la tecnología y el diseño - Ms Barcelona.

BLEU DE SAVOIE

One of the rarest stones in the world, from a cave in Aime in Savoie, the French Alps region, Bleu de Savoie mesmerizes by the unique variation of bluish-gray tones. The light veins, almost white, flow smoothly on the surface and guarantee the contemporary touch of the material. The reproduction of this material in porcelain tiles has the ambition to provide its use without extinguishing natural sources, which must be kept for moments that are rare as well.

Una de las piedras más raras del mundo, procedente de un pozo en Aime na Savoie, región de los Alpes franceses, encanta por la particular variación de tonos de gris azulado. Las vetas claras, casi blancas, caminan suavemente sobre la superficie y garantizan el toque contemporáneo del material. La reproducción de este material en porcelanato tiene la ambición de dar uso sin extinguir fuentes naturales, que deben ser preservadas para momentos que también son raros.

In a long and remarkable historical passage, Vivant lands in the contemporaneity of enthusiastic and sophisticated homes. Inspired by the French artistic movement, which emerged at the end of the 19th century - Impressionism was a symbol of a time when paintings portrayed landscapes, highlighted the relationship between space and light, and sought to awaken sensations.

En un largo y vibrante pasaje histórico, Vivant desembarca en la contemporaneidad de los hogares entusiastas y sofisticados. Inspirado en el Impresionismo, el movimiento artístico francés, surgido a finales de siglo XIX que fue símbolo de una época en que las pinturas retrataban paisajes evidenciando la relación entre espacio y luz y buscaban despertar sensaciones.

Artisanal and digital are mixed to create a surprising result. The abstract patterns printed on the ceramic softly reveal themselves due to the reflection of light, which breaks the scintillation of the surface when viewed from different angles. It creates a spectacular effect that is sometimes shown, sometimes hidden. The free combination between the faces of the products makes the an unexpected mix, using colors inspired by the elements of nature. A unique mix plenty of personality.

Artesanal y digital se combinan para un resultado extraordinario. Los padrones de la naturaleza abstracta impresos sobre la cerámica rompen delicadamente el brillo de la superficie cuando contemplada sobre diferentes ángulos, creando un efecto de luz que a veces se muestra, y a veces se esconde. La libre combinación entre las superficies de los productos permite crear lo inesperado, con colores inspirados en los elementos de la naturaleza. Una mezcla única y repleta de personalidad.

Our search for the essence of the earth has led us to a deep connection with matter in its raw state and revealed characteristics that opened up new possibilities for thinking about the concept of cladding. Terralma brings the origin of the material that has the power to transform but preserves its essence. A color analysis, starting from an immersion in the reconnection and identity trend, resulted in an vibrant palette of earthy tones, complemented by cool, nature-inspired nuances.

La búsqueda de la esencia de la tierra nos llevó a una conexión profunda con la materia en su estado bruto y reveló características que abrieron nuevas posibilidades de pensar el concepto de revestir. Terralma aporta el origen del material que tiene el poder de transformarse, pero conserva su esencia. Un análisis de color, a partir de una inmersión en la tendencia de reconexión e identidad, dio como resultado una paleta intensa de tonos terrosos, complementada por matices fríos inspirados en la naturaleza.
